WHO WE ARE

Powering Progress Connecting Communities

FRZHUB Technologies Ltd is Uganda's premier infrastructure development partner, specializing in telecommunications and energy solutions since 2017.

From fiber optic networks that bridge the digital divide to solar power systems that illuminate rural communities, we deliver end-to-end infrastructure solutions with unwavering commitment to quality, safety, and excellence.

Our team combines local expertise with international standards, having successfully delivered projects for MTN, Airtel, NITA-U, and leading energy providers across East Africa

7+ YEARS

50+ PROJECTS

100% SAFETY

Zero Incident Safety Record

TELECOMMUNICATIONS

Telecommunications Infrastructure

We design, construct, and maintain robust communication networks that keep Uganda connected. From towering masts to underground fiber, our expertise spans the full spectrum of telecom infrastructure.

TELECOMMUNICATIONS

Our Services

Tower & Mast Construction

Professional installation of telecommunications towers and masts with proper foundation works, alignment, and structural integrity.

Aerial Line Construction

Complete aerial fiber and copper cable deployment including pole installation, cable laying, tensioning, and termination.

Underground Cable Systems

Trenching, duct laying, manhole installation, and fiber pulling with full testing and commissioning.

Fiber to the Home (FTTH)

Last-mile fiber deployment bringing high-speed connectivity to residential and commercial customers.

Tower & Mast Construction

Professional installation of telecommunications towers and masts with proper foundation works, alignment, and structural integrity

Maintenance & Support

Ongoing network maintenance, fault resolution and performance optimization services

CORE PILLAR 2

Energy Infrastructure

We deliver sustainable energy solutions that power communities and support critical infrastructure across Uganda.

From solar power installations to electrical distribution networks, our energy division brings reliable power to urban centers and remote locations alike.

OUR WORK

Featured Projects

NITA-U E-Government Fiber Project

NITA-U E-Government Fiber Project

Multi-phase fiber optic network deployment connecting government institutions across Uganda. Phases 1-4 completed successfully.

MTN FTTH Rollout

MTN UGANDA

Ongoing Fiber to the Home infrastructure deployment bringing high-speed internet to residential customers nationwide.

UPF Safe City Project

UGANDA POLICE FORCE

Security infrastructure and connectivity solutions for Phase 1 and 2 of the Safe City initiative.

C Squared OSP Fiber Network

C SQUARED

Complete outside plant fiber network construction with full testing and commissioning.

Kitti Africa Fiber Deployment

KIITI AFRICA

Fiber rollout and ongoing maintenance project delivering reliable connectivity infrastructure

TRUSTED BY INDUSTRY LEADERS

MTN | Airtel | Africell | NITA-U | UPF | C Squared

READY TO BUILD TOGETHER?

Let's Power Your Next Project

Whether you're planning a telecommunications network expansion or seeking energy infrastructure solutions, FRZHUB Technologies is your trusted partner for excellence, safety, and reliability.
